## WORK EXPERIENCE

### FULL Creative Automation QA Engineer

06/2023 - Present

Portland, Oregon, USA -Remote

- Designing and executing robust test automation frameworks to ensure seamless functionality & performance across iOS applications, leveraging Core Java expertise.
- Developing and maintaining test scripts using Appium, enhancing automation efficiency, & ensuring comprehensive test coverage for critical application features.
- Implementing Continuous Integration workflows with GitHub Actions, streamlining the testing process and minimizing deployment delays for faster product releases.
- Identifying and resolving complex automation challenges, applying problem-solving skills to improve test accuracy and reduce downtime in development cycles.
- Collaborating with cross-functional teams to refine test automation strategies, ensuring alignment with product requirements and quality standards.
- Optimizing automation processes for scalability and reliability, contributing to improved software delivery timelines and enhanced user experience.

### Moolya Software Testing SDET - Software Development Engineer in Test

10/2021 - 06/2023

Pune

Career Path : SDET <-- Associate SDET <-- STE Trainee <-- STE Intern

- Delivered comprehensive manual, automation, and performance testing, ensuring high-quality software development, leveraging Python, Appium, and Selenium expertise.
- Developed and implemented robust test automation frameworks using Robot Framework, Python, and Appium, improving testing efficiency and reducing errors.
- Conducted backend testing and configured gold leasing features, ensuring seamless functionality and system reliability across critical application modules.
- Collaborated with cross-functional teams to define project scope, technical requirements, and deliverables, aligning testing processes with business objectives.
- Utilized Java, Postman API, and BrowserStack for UI Automation, API Testing, and Test Scripts, optimizing performance and identifying critical bugs.

### Spectrum Consultants - NVIDIA Graphics Process Executive

04/2021 - 08/2021

Pune

### Varroc Engineering Ltd. Manufacturing Engineering Intern

06/2020 - 02/2021

Pune

## PROFESSIONAL PROJECTS

### iOS Test Automation Framework - FULL Creative

- Developed UI Test Automation Framework to streamlines mobile app testing across platforms, ensuring improved stability and performance using Appium 2.0.

## COMPETENCIES

### Technical Skills

Java | Python | Appium | Selenium | Robot Framework | SoapUI | Postman API | Bugasura | BrowserStack | Jira | CI/CD | Test Automation | UI Automation | API Testing | Manual Testing | QA Automation | OOP | Test Planning | iOS Automation | Core Java | Github Actions

### Business Analytics Skills

Data Analysis | Data Visualization | Statistical Analysis | SQL | Data Mining | Data Cleaning | Business Intelligence | Forecasting | Reporting | Excel | Power BI | KPI Development | Dashboard Creation

## EDUCATION

### MBA (Operations) Symbiosis School For Online & Digital Learning

2023 - 2025

Pune

### B.E (Electrical) Savitribai Phule Pune University

2017 - 2020

Pune

## AWARDS

### Beyond Call of Duty Award 2022

Recognized for exceptional contributions to software quality assurance and consistently exceeding project expectations.

### Electronics Business Unit Townhall Award (EBUTH) 2021

Part of the team awarded for chain management of DZ CDI into DU CDI

### 5th Position in Inter Plant Kaizen Competition (IPKC) 2021

Placed in top 10 in Inter Plant Kaizen Competition (IPKC2K20) organised in Varroc Engineering Ltd.
